3TB!

G SAFE™

RAID 1 (Mirrored) Storage Solutions for Data Security

G-SAFE™ is the ideal storage solution to safeguard your important digital photos, audio and video libraries, and documents. G-SAFE offers the ultimate in peace of mind by simultaneously writing to two independent hard disk drives, providing instant backup of files as you save them. And unlike single-drive backup systems, if a drive failure occurs your data is safe and accessible. G-SAFE features two removable drive modules for easy replacement of disk drives and off-site backup of data. G-SAFE utilizes two drives. For example, G-SAFE 3TB has two 3TB drives.

KEY FEATURES

- Perfect for safe guarding photos and video from digital cameras
- Data is written to two independent drives simultaneously
- Removable, high-performance 7200 RPM SATA II drives
- eSATA, FireWire 800 and USB 2.0 interface
- Storage capacities up to 3TB (2x 3TB drives)
- Integrated fan keeps system cool
- Front panel LCD for RAID system configuration and monitoring
- Includes all cables
- 3-year limited warranty

One GB is equal to one billion bytes and one TB equals 1,000 GB (one trillion bytes) when referring to hard drive capacity. Accessible capacity will vary from the stated capacity due to formatting and partitioning of the hard drive, the computer's operating system, and other factors.

Approximations: results will vary based on file size, resolution, compression, bit rate, content, host device, pre-loaded files, and other factors. See www.g-technology.com
